Ask a question about this product

Description The vehicle features a 125cc, single-cylinder, 4-stroke, air-cooled engine, equipped with electric start ignition for easy operation. It offers an automatic transmission, producing a power output of 8.2hp and can reach a top speed of 60km/hr. Both the front and rear brakes are disc type, ensuring reliable stopping power. The carburetor model is a PZ26, and it rides on tires sized 19x7-8 inches at the front and 18x9.5-8 inches at the rear. For added safety and control, it includes a speed governor, a hand shift lever, and a front brake. Practical features include a trailer ball hitch and a rear carrier rack, enhancing its utility. The suspension system boasts an upgraded dual A-arm at the front and a solid axle at the rear, providing a smooth ride. The seat height is comfortably set at 26 inches (67cm), and the vehicle's dry weight is 220lbs (100kg). Overall product dimensions measure 57 inches in length, 39 inches in width, and 39 inches in height (145cm x 99cm x 99cm), making it a compact and efficient design for both recreational and practical use.

This Gas ATV is shipped 90% assembled, some assembly is required.

This Gas ATV requires but is not limited to:

- Basic understanding of Carburetor function. Example: Choke ON, Choke OFF
- Ability to Perform Oil Change and Check Oil
